

MONDAY 02, DECEMBER, 2024

VENUE: LECTURE HALL IN MINISTRY OF HEALTH BRANCH

Title: “How to improve the population health in the Kingdom of Saudi Arabia in a sustainable way?”

The goal with the workshop is : to promote research in the Kingdom of Saudi Arabia that can help improve health.

Specific objectives:

The participants will after this workshop be able to:

- ✓ describe the main epidemiological methods for researching the levels and the causes of mortality in their field of focus, and for analyzing the interventions aimed to reduce such mortalities.
- ✓ be familiar with the main qualitative methods for supplementary studies of the determinants of the mortality and morbidity in their field of focus.
- ✓ have drafted and presented a project plan aimed to study KSA relevant aspects of these levels, causes or interventions.
- ✓ reflect on the concept Sustainable health.
- ✓ become inspired by this brief workshop experience as a “take-off” to conduct local workshops: but with follow-up as e-mails and further
